

someofsomeofall 2025 Solo Exhibition in New York at **Miles McEnery Gallery** – January 30 – March 15

At the heart of Evans' practice lies the artist's studio—a space in constant flux, where he engages in a perpetual dialogue with this treasured place. His works are living, breathing entities that capture the dynamic intersection of personal evolution and shifting art historical currents. These paintings set in motion mappings of layered timeframes from the artist's fluid brainscapes.
